<p>Explain how you see the green bin program working in your school? Would you use green bins in individual classrooms, pods/cafeteria areas and/or washrooms (for paper towels)?</p>		
<p>Green bins need to be emptied regularly to minimize unpleasant odours and other problems. How would this process work in your school? Who would take responsibility for each step? Teachers, students or custodians (or all three)?</p>		
<p>Storage and regular rinsing of the green bins is an important part of maintaining a green bin program. Please describe how your facility can support this.</p>		
<p>Classroom bins need to be lined with folded newspaper or compostable bin liners (which the board cannot provide). How will you line bins?</p>		
<p>Launching a successful green bin program often requires training and encouraging staff and students. How do you plan do to this?</p>		
<p>How many kitchen-countertop sized bins (for classrooms) do you need?</p>	<p>How many residential curbside carts (for staff washrooms)?</p>	<p>How many 120L curbside carts?</p>
